

Linden Care Leads National Effort to Promote Best-in-Class Compliance for Practitioners

Initiates Series of Presentations at PAINWeekend Regional Conferences Featuring Leading Advocates Against Prescription Drug Abuse, Robert Stutman and Judge Jodi Debbrecht Switalski

Woodbury, NY, June 1, 2016 –

Linden Care, a specialty pharmacy focused on medications access and optimizing treatment outcomes for patients suffering from chronic pain, announced a series of PAINWeekend presentations featuring Robert Stutman and Judge Judy Debbrecht Switalski. The presentation series titled “The Problem is US – The Undeniable Truth About the 21st Century Drug Epidemic” focuses on the misuse and abuse of prescription drugs in the U.S. and assists practitioners in identifying, preventing, and complying with current policy requirements. The series of PAINWeekend presentations will include sites in Los Angeles, Chicago, Nashville, Seattle and Baltimore.

Robert Stutman was formerly a Special Agent with the DEA for 25 years, most recently Special Agent in Charge of the New York Field Division (the nation’s largest). Mr. Stutman is a consultant to both CBS and PBS News. In 1990, Mr. Stutman established The Stutman Group, a Management Consulting firm that designs and implements comprehensive and practical substance abuse prevention programs for communities, corporations, and school systems across the nation.

Judge Jodi Debbrecht Switalski is a former Metro Detroit felony prosecutor and a leader in the fight against the opioid epidemic in Michigan as well as the founder of sobriety/drug and veterans treatment courts. She is also a featured speaker at the 2016 International Conference on Opioids.

Marc Wiener, Linden Care CEO, said, "Seventy-eight Americans die every day because of prescription medication overdose. The system is broken. Linden Care is pleased to shed light on the epidemic by bringing industry speakers Robert Stutman and Judge Jodi Debbrecht Switalski to PAINWeekend as part of our commitment to assist practitioners with establishing a firm foundation for opioid management. Linden Care continues to take a leadership role in stopping the pain drug epidemic. Through its best-in-class compliance, Linden Care supports patient care by distributing critical and difficult to stock medications while reducing fraud and abuse."

About Linden Care

Headquartered in Woodbury, NY, Linden Care, a BelHealth Investment Partners portfolio company, is a leading provider of specialty pharmacy services to the pain management industry. The Company services the needs of patients and physicians in the highly regulated pain industry. Linden Care works closely with leading pain pharmaceutical manufacturers and pain management physicians to formulate patient management programs to facilitate prior authorization and best-in-class compliance to optimize treatment outcomes for patients in the \$25 billion chronic pain industry.

About PAINWeekend

PAINWeekEnd regional conferences are produced for frontline practitioners who want to optimize their knowledge of the latest techniques for pain management and earn CE/CME credits through participation in the conference curriculum.
