GeminiBio Appoints Jay Somera to its Board of Directors

Sacramento, California – October 27, 2026 – Gemini Bioproducts, LLC ("GeminiBio" or the "Company"), a portfolio company of BelHealth Investment Partners, LLC("BelHealth"), a Florida-based healthcare private equity firm, today announced the appointment of Jay Somera to its Board of Directors. Somera recently joined BelHealth as a Partner.

Somera is a proven healthcare entrepreneur and a key architect of BelHealth's successful 2021 exit of American Health Staffing Group ("AHSG"). He is best known as the founder of Thaxton Interim Leadership, LLC ("Thaxton"), a premier provider of interim healthcare leadership that grew into part of a nationwide top-10 healthcare staffing platform under the AHSG umbrella. Before founding Thaxton in 2013, Somera led high-level talent acquisition strategy for Kaiser Permanente across the Pacific Northwest. He is the owner of Healthcare Executive Placements and Azad, Inc.

"GeminiBio has built a differentiated position by being designed into its customers' processes, from human AB serum for cell therapy to custom process liquids built into clinical and commercial-stage biologic drugs," said Somera. "Those relationships are a strong foundation for growth. I look forward to working with Brian, the management team, and my fellow board members to help GeminiBio scale with discipline and capture the opportunity in cell therapy and bioprocessing."

"We are pleased to welcome Jay to the GeminiBio board," said Brian Parker, Chief Executive Officer of GeminiBio. "Jay has built and scaled businesses and knows what it takes to attract and develop great talent. His operating experience will be a valuable resource to me and our team as we expand with our cell therapy and biopharma customers."

About GeminiBio

GeminiBio is a portfolio company of BelHealth Investment Partners. GeminiBio was founded in 1985 and serves the global biopharma, and cell and gene therapy industries. Its focus is on helping customers (from basic research to commercial production) accelerate the development of life-enhancing biotherapeutics by streamlining and improving their cell culture and process liquid manufacturing workflows.

The company provides critical raw materials used in cell therapy, gene therapy and biotherapeutics manufacturing – including serum, customized media and buffers solutions, and process liquids. Located in West Sacramento, California, GeminiBio has 57,000 square feet of cGMP manufacturing space, segregated between animal origin-free and animal component manufacturing. GeminiBio is an ISO 13485:2016 certified, FDA-registered Class 1 Medical Device Manufacturer, aligned with 21 CFR Part 820.

About BelHealth Investment Partners

BelHealth Investment Partners, based in Fort Lauderdale, Florida, is a healthcare private equity firm focused on lower middle market companies. BelHealth acquires majority positions in entrepreneur-owned companies that it believes will benefit from its extensive investing, executive management and entrepreneurial experience.
